SEC. 101. PROTECTION, INTERPRETATION, AND RESEARCH IN THE NATIONAL PARK SYSTEM.

Recognizing the ever increasing societal pressures being placed upon America's unique natural and cultural resources contained in the National Park System, the Secretary shall continually improve the ability of the National Park Service to provide state-of-the-art management, protection, and interpretation of and research on the resources of the National Park System.

SEC. 102. NATIONAL PARK SERVICE EMPLOYEE TRAINING.

The Secretary shall develop a comprehensive training program for employees in all professional careers in the work force of the National Park Service for the purpose of assuring that the work force has available the best, up-to-date knowledge, skills and abilities with which to manage, interpret and protect the resources of the National Park System.

SEC. 103. MANAGEMENT DEVELOPMENT AND TRAINING.

Within 2 years after the enactment of this Act, the Secretary shall develop a clear plan for management training and development, whereby career, professional National Park Service employees from any appropriate academic field may obtain sufficient training, experience, and advancement opportunity to enable those qualified to move into park management positions, including explicitly the position of superintendent of a unit of the National Park System.

SEC. 104. PARK BUDGETS AND ACCOUNTABILITY.

(a) *STRATEGIC AND PERFORMANCE PLANS FOR EACH UNIT*.—Each unit of the National Park System shall prepare and make available to the public a 5-year strategic plan and an annual performance plan. Such plans shall reflect the National Park Service policies, goals, and outcomes represented in the Service-wide Strategic Plan, prepared pursuant to the provisions of the Government Performance and Results Act of 1993 (Public Law 103-62; 107 Stat. 285).

(b) *ANNUAL BUDGET FOR EACH UNIT*.—As a part of the annual performance plan for a unit of the National Park System prepared pursuant to subsection (a), following receipt of the appropriation for the unit from the Operations of the National Park System account (but no later than January 1 of each year), the superintendent of the unit shall develop and make available to the public the budget for the current fiscal year for that unit. The budget shall include, at a minimum, funding allocations for resource preservation (including resource management), visitor services (including maintenance, interpretation, law enforcement, and search and rescue) and administration. The budget shall also include allocations into each of the above categories of all funds retained from fees collected for that year, including (but not limited to) special use permits, concession franchise fees, and recreation use and entrance fees.

TITLE II—NATIONAL PARK SYSTEM RESOURCE INVENTORY AND MANAGEMENT

SEC. 201. PURPOSES.

The purposes of this title are—

(1) to more effectively achieve the mission of the National Park Service;

(2) to enhance management and protection of national park resources by providing clear authority and direction for the conduct of scientific study in the National Park System and to use the information gathered for management purposes;

(3) to ensure appropriate documentation of resource conditions in the National Park System;

(4) to encourage others to use the National Park System for study to the benefit of park management as well as broader scientific value, where such study is consistent with the Act of August 25, 1916 (commonly known as the National Park Service Organic Act; 16 U.S.C. 1 et seq.); and

(5) to encourage the publication and dissemination of information derived from studies in the National Park System.

SEC. 202. RESEARCH MANDATE.

The Secretary is authorized and directed to assure that management of units of the National Park System is enhanced by the availability and utilization of a broad program of the highest quality science and information.

SEC. 203. COOPERATIVE AGREEMENTS.

(a) *COOPERATIVE STUDY UNITS*.—The Secretary is authorized and directed to enter into cooperative agreements with colleges and universities, including but not limited to land grant schools, in partnership with other Federal and State agencies, to establish cooperative study units to conduct multi-disciplinary research and develop integrated information products on the resources of the National Park System, or the larger region of which parks are a part.

(b) *REPORT*.—Within one year of the date of enactment of this title, the Secretary shall report to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Resources of the House of Representatives on progress in the establishment of a comprehensive network of such college and university based cooperative study units as will provide full geographic and topical coverage for research on the resources contained in units of the National Park System and their larger regions.

SEC. 204. INVENTORY AND MONITORING PROGRAM.

The Secretary shall undertake a program of inventory and monitoring of National Park System resources to establish baseline information and to provide information on the long-term trends in the condition of National Park System resources. The monitoring program shall be developed in cooperation with other Federal monitoring and information collection efforts to ensure a cost-effective approach.

SEC. 205. AVAILABILITY FOR SCIENTIFIC STUDY.

(a) *IN GENERAL*.—The Secretary may solicit, receive, and consider requests from Federal or

non-Federal public or private agencies, organizations, individuals, or other entities for the use of any unit of the National Park System for purposes of scientific study.

(b) **CRITERIA.**—A request for use of a unit of the National Park System under subsection (a) may only be approved if the Secretary determines that the proposed study—

(1) is consistent with applicable laws and National Park Service management policies; and

(2) will be conducted in a manner as to pose no threat to park resources or public enjoyment derived from those resources.

(c) **FEE WAIVER.**—The Secretary may waive any park admission or recreational use fee in order to facilitate the conduct of scientific study under this section.

(d) **NEGOTIATIONS.**—The Secretary may enter into negotiations with the research community and private industry for equitable, efficient benefits-sharing arrangements.

The Secretary shall take such measures as are necessary to assure the full and proper utilization of the results of scientific study for park management decisions. In each case in which an action undertaken by the National Park Service may cause a significant adverse effect on a park resource, the administrative record shall reflect the manner in which unit resource studies have been considered. The trend in the condition of resources of the National Park System shall be a significant factor in the annual performance evaluation of each superintendent of a unit of the National Park System.

SEC. 207. CONFIDENTIALITY OF INFORMATION.

Information concerning the nature and specific location of a National Park System resource which is endangered, threatened, rare, or commercially valuable, of mineral or paleontological objects within units of the National Park System, or of objects of cultural patrimony within units of the National Park System, may be withheld from the public in response to a request under section 552 of title 5, United States Code, unless the Secretary determines that—

(1) disclosure of the information would further the purposes of the unit of the National Park System in which the resource or object is located and would not create an unreasonable risk of harm, theft, or destruction of the resource or object, including individual organic or inorganic specimens; and

(2) disclosure is consistent with other applicable laws protecting the resource or object.

TITLE III—STUDY REGARDING ADDITION OF NEW NATIONAL PARK SYSTEM AREAS

SEC. 301. SHORT TITLE.

This title may be cited as the “National Park System New Areas Studies Act”.

SEC. 302. PURPOSE.

SEC. 303. STUDY OF ADDITION OF NEW NATIONAL PARK SYSTEM AREAS.

Section 8 of Public Law 91-383 (commonly known as the National Park System General Authorities Act; 16 U.S.C. 1a-5) is amended as follows:

(1) By inserting “GENERAL AUTHORITY.—” after “(a)”,

(2) By striking the second through the sixth sentences of subsection (a).

(3) By redesignating the last two sentences of subsection (a) as subsection (f) and inserting in the first of such sentences before the words “For the purposes of carrying” the following: “(f) AUTHORIZATION OF APPROPRIATIONS.—”.

(4) By inserting the following after subsection (a):

“(b) **STUDIES OF AREAS FOR POTENTIAL ADDITION.**—(1) At the beginning of each calendar year, along with the annual budget submission, the Secretary shall submit to the Committee on

Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate a list of areas recommended for study for potential inclusion in the National Park System.

“(2) In developing the list to be submitted under this subsection, the Secretary shall consider—

“(A) those areas that have the greatest potential to meet the established criteria of national significance, suitability, and feasibility;

“(B) themes, sites, and resources not already adequately represented in the National Park System; and

“(C) public petition and Congressional resolutions.

“(3) No study of the potential of an area for inclusion in the National Park System may be initiated after the date of enactment of this subsection, except as provided by specific authorization of an Act of Congress.

“(4) Nothing in this Act shall limit the authority of the National Park Service to conduct preliminary resource assessments, gather data on potential study areas, provide technical and planning assistance, prepare or process nominations for administrative designations, update previous studies, or complete reconnaissance surveys of individual areas requiring a total expenditure of less than \$25,000.

“(5) Nothing in this section shall be construed to apply to or to affect or alter the study of any river segment for potential addition to the national wild and scenic rivers system or to apply to or to affect or alter the study of any trail for potential addition to the national trails system.

“(c) **REPORT.**—(1) The Secretary shall complete the study for each area for potential inclusion in the National Park System within 3 complete fiscal years following the date on which funds are first made available for such purposes. Each study under this section shall be prepared with appropriate opportunity for public involvement, including at least one public meeting in the vicinity of the area under study, and after reasonable efforts to notify potentially affected landowners and State and local governments.

“(2) In conducting the study, the Secretary shall consider whether the area under study—

“(A) possesses nationally significant natural or cultural resources and represents one of the most important examples of a particular resource type in the country; and

“(B) is a suitable and feasible addition to the system.

“(3) Each study—

“(A) shall consider the following factors with regard to the area being studied—

“(i) the rarity and integrity of the resources;

“(ii) the threats to those resources;

“(iii) similar resources are already protected in the National Park System or in other public or private ownership;

“(iv) the public use potential;

“(v) the interpretive and educational potential;

“(vi) costs associated with acquisition, development and operation;

“(vii) the socioeconomic impacts of any designation;

“(viii) the level of local and general public support; and

“(ix) whether the area is of appropriate configuration to ensure long-term resource protection and visitor use;

“(B) shall consider whether direct National Park Service management or alternative protection by other public agencies or the private sector is appropriate for the area;

“(C) shall identify what alternative or combination of alternatives would in the professional judgment of the Director of the National Park Service be most effective and efficient in protecting significant resources and providing for public enjoyment; and

“(D) may include any other information which the Secretary deems to be relevant.

“(4) Each study shall be completed in compliance with the National Environmental Policy Act of 1969.

“(5) The letter transmitting each completed study to Congress shall contain a recommendation regarding the Secretary's preferred management option for the area.

“(d) **NEW AREA STUDY OFFICE.**—The Secretary shall designate a single office to be assigned to prepare all new area studies and to implement other functions of this section.

“(e) **LIST OF AREAS.**—At the beginning of each calendar year, along with the annual budget submission, the Secretary shall submit to the Committee on Resources of the House of Representatives and to the Committee on Energy and Natural Resources of the Senate a list of areas which have been previously studied which contain primarily historical resources, and a list of areas which have been previously studied which contain primarily natural resources, in numerical order of priority for addition to the National Park System. In developing the lists, the Secretary should consider threats to resource values, cost escalation factors, and other factors listed in subsection (c) of this section. The Secretary should only include on the lists areas for which the supporting data is current and accurate.”.

(5) By adding at the end of subsection (f) (as designated by paragraph (3) of this section) the following: “For carrying out subsections (b) through (d) there are authorized to be appropriated \$2,000,000 for each fiscal year.”.

TITLE IV—NATIONAL PARK SERVICE CONCESSIONS MANAGEMENT

SEC. 401. SHORT TITLE.

This title may be cited as the “National Park Service Concessions Management Improvement Act of 1998”.

SEC. 402. CONGRESSIONAL FINDINGS AND STATEMENT OF POLICY.

(a) **FINDINGS.**—In furtherance of the Act of August 25, 1916 (commonly known as the National Park Service Organic Act; 16 U.S.C. 1 et seq.), which directs the Secretary to administer units of the National Park System in accordance with the fundamental purpose of conserving their scenery, wildlife, and natural and historic objects, and providing for their enjoyment in a manner that will leave them unimpaired for the enjoyment of future generations, the Congress hereby finds that the preservation and conservation of park resources and values requires that such public accommodations, facilities, and services as have to be provided within such units should be provided only under carefully controlled safeguards against unregulated and indiscriminate use, so that—

(1) visitation will not unduly impair these resources and values; and

(2) development of public accommodations, facilities, and services within such units can best be limited to locations that are consistent to the highest practicable degree with the preservation and conservation of the resources and values of such units.

(b) **POLICY.**—It is the policy of the Congress that the development of public accommodations, facilities, and services in units of the National Park System shall be limited to those accommodations, facilities, and services that—

(1) are necessary and appropriate for public use and enjoyment of the unit of the National Park System in which they are located; and

(2) are consistent to the highest practicable degree with the preservation and conservation of the resources and values of the unit.

SEC. 403. AWARD OF CONCESSIONS CONTRACTS.

In furtherance of the findings and policy stated in section 402, and except as provided by this title or otherwise authorized by law, the Secretary shall utilize concessions contracts to authorize a person, corporation, or other entity to provide accommodations, facilities, and services to visitors to units of the National Park System. Such concessions contracts shall be awarded as follows:

(1) **COMPETITIVE SELECTION PROCESS.**—Except as otherwise provided in this section, all proposed concessions contracts shall be awarded by the Secretary to the person, corporation, or other entity submitting the best proposal, as determined by the Secretary through a competitive selection process. Such competitive process shall include simplified procedures for small, individually-owned, concessions contracts.

(2) **SOLICITATION OF PROPOSALS.**—Except as otherwise provided in this section, prior to awarding a new concessions contract (including renewals or extensions of existing concessions contracts) the Secretary shall publicly solicit proposals for the concessions contract and, in connection with such solicitation, the Secretary shall prepare a prospectus and shall publish notice of its availability at least once in local or national newspapers or trade publications, and/or the Commerce Business Daily, as appropriate, and shall make the prospectus available upon request to all interested parties.

(3) **PROSPECTUS.**—The prospectus shall include the following information:

(A) The minimum requirements for such contract as set forth in paragraph (4).

(B) The terms and conditions of any existing concessions contract relating to the services and facilities to be provided, including all fees and other forms of compensation provided to the United States by the concessioner.

(C) Other authorized facilities or services which may be provided in a proposal.

(D) Facilities and services to be provided by the Secretary to the concessioner, if any, including public access, utilities, and buildings.

(E) An estimate of the amount of compensation, if any, due an existing concessioner from a new concessioner under the terms of a prior concessions contract.

(F) A statement as to the weight to be given to each selection factor identified in the prospectus and the relative importance of such factors in the selection process.

(G) Such other information related to the proposed concessions operation as is provided to the Secretary pursuant to a concessions contract or is otherwise available to the Secretary, as the Secretary determines is necessary to allow for the submission of competitive proposals.

(H) Where applicable, a description of a preferential right to the renewal of the proposed concessions contract held by an existing concessioner as set forth in paragraph (7).

(4) **MINIMUM REQUIREMENTS.**—(A) No proposal shall be considered which fails to meet the minimum requirements as determined by the Secretary. Such minimum requirements shall include the following:

(i) The minimum acceptable franchise fee or other forms of consideration to the Government.

(ii) Any facilities, services, or capital investment required to be provided by the concessioner.

(iii) Measures necessary to ensure the protection, conservation, and preservation of resources of the unit of the National Park System.

(B) The Secretary shall reject any proposal, regardless of the franchise fee offered, if the Secretary determines that the person, corporation, or entity is not qualified, is not likely to provide satisfactory service, or that the proposal is not responsive to the objectives of protecting and preserving resources of the unit of the National Park System and of providing necessary and appropriate facilities and services to the public at reasonable rates.

(C) If all proposals submitted to the Secretary either fail to meet the minimum requirements or are rejected by the Secretary, the Secretary shall establish new minimum contract requirements and re-initiate the competitive selection process pursuant to this section.

(D) The Secretary may not execute a concessions contract which materially amends or does not incorporate the proposed terms and conditions of the concessions contract as set forth in the applicable prospectus. If proposed material

amendments or changes are considered appropriate by the Secretary, the Secretary shall resolicit offers for the concessions contract incorporating such material amendments or changes.

(5) **SELECTION OF THE BEST PROPOSAL.**—(A) In selecting the best proposal, the Secretary shall consider the following principal factors:

(i) The responsiveness of the proposal to the objectives of protecting, conserving, and preserving resources of the unit of the National Park System and of providing necessary and appropriate facilities and services to the public at reasonable rates.

(ii) The experience and related background of the person, corporation, or entity submitting the proposal, including the past performance and expertise of such person, corporation or entity in providing the same or similar facilities or services.

(iii) The financial capability of the person, corporation, or entity submitting the proposal.

(iv) The proposed franchise fee, except that consideration of revenue to the United States shall be subordinate to the objectives of protecting, conserving, and preserving resources of the unit of the National Park System and of providing necessary and appropriate facilities to the public at reasonable rates.

(B) The Secretary may also consider such secondary factors as the Secretary deems appropriate.

(C) In developing regulations to implement this title, the Secretary shall consider the extent to which plans for employment of Indians (including Native Alaskans) and involvement of businesses owned by Indians, Indian tribes, or Native Alaskans in the operation of a concession, contracts should be identified as a factor in the selection of a best proposal under this section.

(6) **CONGRESSIONAL NOTIFICATION.**—The Secretary shall submit any proposed concessions contract with anticipated annual gross receipts in excess of \$5,000,000 or a duration of more than 10 years to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate. The Secretary shall not award any such proposed contract until at least 60 days subsequent to the notification of both committees.

(7) **PREFERENTIAL RIGHT OF RENEWAL.**—(A) Except as provided in subparagraph (B), the Secretary shall not grant a concessioner a preferential right to renew a concessions contract, or any other form of preference to a concessions contract.

(B) The Secretary shall grant a preferential right of renewal to an existing concessioner with respect to proposed renewals of the categories of concessions contracts described by paragraph (8), subject to the requirements of that paragraph.

(C) As used in this title, the term "preferential right of renewal" means that the Secretary, subject to a determination by the Secretary that the facilities or services authorized by a prior contract continue to be necessary and appropriate within the meaning of section 402, shall allow a concessioner qualifying for a preferential right of renewal the opportunity to match the terms and conditions of any competing proposal which the Secretary determines to be the best proposal for a proposed new concessions contract which authorizes the continuation of the facilities and services provided by the concessioner under its prior contract.

(D) A concessioner which successfully exercises a preferential right of renewal in accordance with the requirements of this title shall be entitled to award of the proposed new concessions contract to which such preference applies.

(8) **OUTFITTER AND GUIDE SERVICES AND SMALL CONTRACTS.**—(A) The provisions of paragraph (7) shall apply only to the following:

(i) Subject to subparagraph (B), outfitting and guide concessions contracts.

(ii) Subject to subparagraph (C), concessions contracts with anticipated annual gross receipts under \$500,000.

(B) For the purposes of this title, an "outfitting and guide concessions contract" means a concessions contract which solely authorizes the provision of specialized backcountry outdoor recreation guide services which require the employment of specially trained and experienced guides to accompany park visitors in the backcountry so as to provide a safe and enjoyable experience for visitors who otherwise may not have the skills and equipment to engage in such activity. Outfitting and guide concessioners, where otherwise qualified, include concessioners which provide guided river running, hunting, fishing, horseback, camping, and mountaineering experiences. An outfitting and guide concessioner is entitled to a preferential right of renewal under this title only if—

(i) the contract with the outfitting and guide concessioner does not grant the concessioner any interest, including any leasehold surrender interest or possessory interest, in capital improvements on lands owned by the United States within a unit of the National Park System, other than a capital improvement constructed by a concessioner pursuant to the terms of a concessions contract prior to the date of the enactment of this title or constructed or owned by a concessioner or his or her predecessor before the subject land was incorporated into the National Park System;

(ii) the Secretary determines that the concessioner has operated satisfactorily during the term of the contract (including any extension thereof); and

(iii) the concessioner has submitted a responsive proposal for a proposed new contract which satisfies the minimum requirements established by the Secretary pursuant to paragraph (4).

(C) A concessioner that holds a concessions contract that the Secretary estimates will result in gross annual receipts of less than \$500,000 if renewed shall be entitled to a preferential right of renewal under this title if—

(i) the Secretary has determined that the concessioner has operated satisfactorily during the term of the contract (including any extension thereof); and

(ii) the concessioner has submitted a responsive proposal for a proposed new concessions contract which satisfies the minimum requirements established by the Secretary pursuant to paragraph (4).

(9) **NEW OR ADDITIONAL SERVICES.**—The Secretary shall not grant a preferential right to a concessioner to provide new or additional services in a unit of the National Park System.

(10) **SECRETARIAL AUTHORITY.**—Nothing in this title shall be construed as limiting the authority of the Secretary to determine whether to issue a concessions contract or to establish its terms and conditions in furtherance of the policies expressed in this title.

(11) **EXCEPTIONS.**—Notwithstanding the provisions of this section, the Secretary may award, without public solicitation, the following:

(A) A temporary concessions contract or an extension of an existing concessions contract for a term not to exceed 3 years in order to avoid interruption of services to the public at a unit of the National Park System, except that prior to making such an award, the Secretary shall take all reasonable and appropriate steps to consider alternatives to avoid such interruption.

(B) A concessions contract in extraordinary circumstances where compelling and equitable considerations require the award of a concessions contract to a particular party in the public interest. Such award of a concessions contract shall not be made by the Secretary until at least 30 days after publication in the Federal Register of notice of the Secretary's intention to do so and the reasons for such action, and submission of notice to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives.

SEC. 404. TERM OF CONCESSIONS CONTRACTS.

A concessions contract entered into pursuant to this title shall generally be awarded for a

term of 10 years or less. However, the Secretary may award a contract for a term of up to 20 years if the Secretary determines that the contract terms and conditions, including the required construction of capital improvements, warrant a longer term.

SEC. 405. PROTECTION OF CONCESSIONER INVESTMENT.

(a) **LEASEHOLD SURRENDER INTEREST UNDER NEW CONCESSIONS CONTRACTS.**—On or after the date of the enactment of this title, a concessioner that constructs a capital improvement upon land owned by the United States within a unit of the National Park System pursuant to a concessions contract shall have a leasehold surrender interest in such capital improvement subject to the following terms and conditions:

(1) A concessioner shall have a leasehold surrender interest in each capital improvement constructed by a concessioner under a concessions contract, consisting solely of a right to compensation for the capital improvement to the extent of the value of the concessioner's leasehold surrender interest in the capital improvement.

(2) A leasehold surrender interest—

(A) may be pledged as security for financing of a capital improvement or the acquisition of a concessions contract when approved by the Secretary pursuant to this title;

(B) shall be transferred by the concessioner in connection with any transfer of the concessions contract and may be relinquished or waived by the concessioner; and

(C) shall not be extinguished by the expiration or other termination of a concessions contract and may not be taken for public use except on payment of just compensation.

(3) The value of a leasehold surrender interest in a capital improvement shall be an amount equal to the initial value (construction cost of the capital improvement), increased (or decreased) in the same percentage increase (or decrease) as the percentage increase (or decrease) in the Consumer Price Index, from the date of making the investment in the capital improvement by the concessioner to the date of payment of the value of the leasehold surrender interest, less depreciation of the capital improvement as evidenced by the condition and prospective serviceability in comparison with a new unit of like kind.

(4) Effective 9 years after the date of the enactment of this Act, the Secretary may provide, in any particular new concession contract the Secretary estimates will have a leasehold surrender interest of more than \$10,000,000, that the value of any leasehold surrender interest in a capital improvement shall be based on either (A) a reduction on an annual basis, in equal portions, over the same number of years as the time period associated with the straight line depreciation of the initial value (construction cost of the capital improvement), as provided by applicable Federal income tax laws and regulations in effect on the day before the date of the enactment of this Act or (B) such alternative formula that is consistent with the objectives of this title. The Secretary may only use such an alternative formula if the Secretary determines, after scrutiny of the financial and other circumstances involved in this particular concession contract (including providing notice in the Federal Register and opportunity for comment), that such alternative formula is, compared to the standard method of determining value provided for in paragraph (3), necessary in order to provide a fair return to the Government and to foster competition for the new contract by providing a reasonable opportunity to make a profit under the new contract. If no responsive offers are received in response to a solicitation that includes such an alternative formula, the concession opportunity shall be resolicited with the leasehold surrender interest value as described as paragraph (3).

(5) Where a concessioner, pursuant to the terms of a concessions contract, makes a capital improvement to an existing capital improvement

in which the concessioner has a leasehold surrender interest, the cost of such additional capital improvement shall be added to the then current value of the concessioner's leasehold surrender interest.

(b) **SPECIAL RULE FOR EXISTING POSSESSORY INTEREST.**—

(1) A concessioner which has obtained a possessory interest as defined pursuant to Public Law 89-249 (commonly known as the National Park Service Concessions Policy Act; 16 U.S.C. 20 et seq.), as in effect on the day before the date of the enactment of this Act, under the terms of a concessions contract entered into before that date shall, upon the expiration or termination of such contract, be entitled to receive compensation for such possessory interest improvements in the amount and manner as described by such concessions contract. Where such a possessory interest is not described in the existing contract, compensation of possessory interest shall be determined in accordance with the laws in effect on the day before the date of enactment of this Act.

(2) In the event such prior concessioner is awarded a new concessions contract after the effective date of this title replacing an existing concessions contract, the existing concessioner shall, instead of directly receiving such possessory interest compensation, have a leasehold surrender interest in its existing possessory interest improvements under the terms of the new contract and shall carry over as the initial value of such leasehold surrender interest (instead of construction cost) an amount equal to the value of the existing possessory interest as of the termination date of the previous contract. In the event of a dispute between the concessioner and the Secretary as to the value of such possessory interest, the matter shall be resolved through binding arbitration.

(3) In the event that a new concessioner is awarded a concessions contract and is required to pay a prior concessioner for possessory interest in prior improvements, the new concessioner shall have a leasehold surrender interest in such prior improvements and the initial value in such leasehold surrender interest (instead of construction cost), shall be an amount equal to the value of the existing possessory interest as of the termination date of the previous contract.

(c) **TRANSITION TO SUCCESSOR CONCESSIONER.**—Upon expiration or termination of a concessions contract entered into after the effective date of this title, a concessioner shall be entitled under the terms of the concessions contract to receive from the United States or a successor concessioner the value of any leasehold surrender interest in a capital improvement as of the date of such expiration or termination. A successor concessioner shall have a leasehold surrender interest in such capital improvement under the terms of a new contract and the initial value of the leasehold surrender interest in such capital improvement (instead of construction cost) shall be the amount of money the new concessioner is required to pay the prior concessioner for its leasehold surrender interest under the terms of the prior concessions contract.

(d) **TITLE TO IMPROVEMENTS.**—Title to any capital improvement constructed by a concessioner on lands owned by the United States in a unit of the National Park System shall be vested in the United States.

(e) **DEFINITIONS.**—For purposes of this section:

NATIONAL PARKS OMNIBUS MANAGEMENT ACT

Mr. BUMPERS. Mr. President, I rise today in strong support of S. 1693, the National Parks Omnibus Management Act of 1998. Let me begin by acknowledging the work of the sponsor of this legislation, Senator THOMAS. As the chairman of the Subcommittee on National Parks, Historic Preservation and Recreation, he has been willing to compromise and work with all involved parties, including Secretary Babbitt, my friend and colleague Senator BENNETT, Congressmen GEORGE MILLER and DON YOUNG in an effort to enact a meaningful and comprehensive bill for our national parks. It has been a pleasure to work with him on this important legislation and I am very pleased that this bill will pass before I leave the Senate this year. I would also like to particularly thank Senator BENNETT, who has once again been very helpful and constructive in developing a bill that can garner such broad bipartisan support, as I believe this bill has.

Although this is a comprehensive bill that makes a number of positive changes in the way national parks are managed, for me, the most significant provisions are found in title IV—the National Park Service Concessions Management Improvement Act.

Mr. President, for almost 19 years I have worked to reform the concessions policies of the National Park Service to increase competition, provide better services, and to ensure a better return for the American public. Over the past two decades, we have held dozens of hearings, and we've debated this issue in markups and on the Senate floor.

As you know, during the 103d Congress Senator BENNETT and I sponsored a bill which passed the Senate by a vote of 90-9, and passed in the House of Representatives with only minor changes by a vote of 368-30. Despite the overwhelming vote margins, we were unable to pass a final bill before the Congress adjourned. Given the magnitude of those votes, it is very frustrating to be here once again debating park concession reform.

While I support passage of this bill and believe it will enhance the Park

Service's ability to better manage our National Park System, the bill before us today is a true compromise worked out between Senator THOMAS and myself in the Senate and with Congressmen MILLER, DON YOUNG, and JIM HANSEN in the House. Each of us gave something up in order to get a bill passed. The bill—particularly the concession title—does not contain all of the policy changes that I would like to see made. However, passage of this bill will finally allow the Park Service to have meaningful competition for park concession contracts.

Most importantly, the bill will repeal the 1965 Concession Policy Act—a 30-year-old anachronism—including its most anticompetitive provision, the granting to incumbent concessioners of a preferential right to renew their contract by simply matching the terms and conditions of a superior offer.

Other important provisions in the concession reform title include: Maintaining existing statutory protections for outfitter and guide contracts and small contracts with less than \$500,000 in annual gross revenue; a prohibition against giving any concessioner a preferential right to provide new or additional services; and language linking the value of facilities built by a concessioner to actual construction costs, adjusted for inflation, rather than the “sound value” possessory interest allowed under current law.

During the consideration of this bill in the House, possessory interest was the most contentious issue to be resolved. While Senator THOMAS and I had agreed on a formulation in the Senate passed bill that satisfied us, come in the House, particularly the ranking Democrat on the Resources Committee, GEORGE MILLER, preferred the approach taken in the bill I mentioned earlier that passed the Senate in 1993. Under that formulation, a concessioner's possessory interest would be depreciated over time on a straight line basis. While I too prefer this approach, it is clear that the concessioners are adamantly opposed to this method of calculating possessory interest. More importantly, a major change to this key provision would put at risk the agreement we have reached to eliminate the preferential right of renewal, by far the most anticompetitive provision in the existing law.

After lengthy discussions between Congressman MILLER, Secretary Babbitt, Senator THOMAS, and others, another compromise has been agreed to that gives both sides some of what they want. As passed the House, the legislation provides that the Secretary is to value possessory interest as described in the bill for 9 years. At the end of year 7, the Secretary is to send Congress a report on the concessions program in general and, in particular, how this new method of calculating possessory interest has worked. Congress can examine the report and make legislative changes if necessary based on the track record of the previous 7

years. Then, at the end of the 9th year, if no changes in the law have been made, the Secretary will have the discretion, under certain limited circumstances, to require concessioners to use other methods of valuing possessory interest, including but not limited to, straight line depreciation. I think this is a reasonable compromise and very much appreciate the hard work on the part of all parties in working it out.

While the concession title has been of particular interest to me, the bill before us today includes several other titles which I believe will greatly enhance the Park Service's management authorities. The bill includes directives for the Park Service to improve career development and training for its employees and to establish a strong scientific research program in national parks. It codifies criteria for the Park Service to use in evaluating areas proposed for addition to the National Park System. I must say that I very much regret the decision of the House to remove the provisions contained in the Senate bill that gave the Park Service much needed authority to collect and retain fees for commercial filming activities in national park units, and which would have extended the Recreational Fee Demonstration Program for park fees for another 6 years. These provisions were included in the Senate bill to help get badly needed money directly to the parks—something that everyone says they want to do. Deleting these provisions that would have provided literally hundreds of millions of dollars to the parks over the next 5 or 6 years will not help restore our badly deteriorating parks and public lands.

The bill before us today will allow the Park Service to develop and market annual park admission passports to increase public awareness about parks and to raise new revenues. There are a few other titles included in the bill, but those are the most significant provisions.

Mr. President, the concession reform provisions in this bill are a great step forward for the National Park Service and the taxpayers. I strongly support these and the other provisions in this legislation, and I hope my colleagues will join me in helping to pass this bill.

In closing, I want to thank several people who worked very hard on this legislation, in particular title IV related to park concessions. David Brooks and Tom Williams on the Energy Committee Democratic staff have worked with me for years on this issue and I appreciate their efforts very much. Jim O'Toole and Gary Ellsworth of the majority staff have been very helpful to me on this and other bills and I thank them both for their help and cooperation. Dan Naatz on Senator THOMAS' staff and Tim Stewart with Senator BENNETT were crucial to Senate negotiations on this bill and provided constructive and substantive input on a number of occasions. Finally, John

Leshy, Destry Jarvis, and Lars Hanslin in the Interior Department deserve much of the credit for putting together the final compromise on possessory interest that got this bill moving again in the House. Along with John Lawrence and Rick Healy of the Democratic staff on the House Resources Committee, these gentlemen worked tirelessly to put the finishing touches on a very delicate compromise. I very much appreciate their dedication to this effort and their willingness to go the extra mile to get this bill passed.

Mr. THOMAS. Mr. President, I ask unanimous consent that the Senate agree to the amendment of the House.

The PRESIDING OFFICER. Without objection, it is so ordered.

SEC. 2. FINDINGS AND PURPOSES.

(a) *FINDINGS*.—Congress finds the following:

(1) Disability is a natural part of the human experience and in no way diminishes the right of individuals to—

(A) live independently;

(B) enjoy self-determination and make choices;

(C) benefit from an education;

(D) pursue meaningful careers; and

(E) enjoy full inclusion and integration in the economic, political, social, cultural, and educational mainstream of society in the United States.

(2) Technology has become 1 of the primary engines for economic activity, education, and innovation in the Nation, and throughout the world. The commitment of the United States to the development and utilization of technology is 1 of the main factors underlying the strength and vibrancy of the economy of the United States.

(3) As technology has come to play an increasingly important role in the lives of all persons in the United States, in the conduct of business, in the functioning of government, in the fostering of communication, in the conduct of commerce, and in the provision of education, its impact upon the lives of the more than 50,000,000 individuals with disabilities in the United States has been comparable to its impact upon the remainder of the citizens of the United States. Any development in mainstream technology would have profound implications for individuals with disabilities in the United States.

(4) Substantial progress has been made in the development of assistive technology devices, including adaptations to existing devices that facilitate activities of daily living, that significantly benefit individuals with disabilities of all ages. Such devices and adaptations increase the involvement of such individuals in, and reduce expenditures associated with, programs and activities such as early intervention, education, rehabilitation and training, employment, residential living, independent living, and recreation programs and activities, and other aspects of daily living.

(5) All States have comprehensive statewide programs of technology-related assistance. Federal support for such programs should continue, strengthening the capacity of each State to assist individuals with disabilities of all ages with their assistive technology needs.

(6) Notwithstanding the efforts of such State programs, there is still a lack of—

(A) resources to pay for assistive technology devices and assistive technology services;

(B) trained personnel to assist individuals with disabilities to use such devices and services;

(C) information among targeted individuals about the availability and potential benefit of technology for individuals with disabilities;

(D) outreach to underrepresented populations and rural populations;

(E) systems that ensure timely acquisition and delivery of assistive technology devices and assistive technology services;

(F) coordination among State human services programs, and between such programs and private entities, particularly with respect to transitions between such programs and entities; and

(G) capacity in such programs to provide the necessary technology-related assistance.

(7) In the current technological environment, the line of demarcation between assistive technology and mainstream technology is becoming ever more difficult to draw.

(8) Many individuals with disabilities cannot access existing telecommunications and information technologies and are at risk of not being able to access developing technologies. The failure of Federal and State governments, hardware manufacturers, software designers, information systems managers, and telecommunications service providers to account for the specific needs of individuals with disabilities in the design, manufacture, and procurement of telecommunications and information technologies results in the exclusion of such individuals from the use of telecommunications and information technologies and results in unnecessary costs associated with the retrofitting of devices and product systems.

(9) There are insufficient incentives for Federal contractors and other manufacturers of technology to address the application of technology advances to meet the needs of individuals with disabilities of all ages for assistive technology devices and assistive technology services.

(10) The use of universal design principles reduces the need for many specific kinds of assistive technology devices and assistive technology services by building in accommodations for individuals with disabilities before rather than after production. The use of universal design principles also increases the likelihood that products (including services) will be compatible with existing assistive technologies. These principles are increasingly important to enhance access to information technology, telecommunications, transportation, physical structures, and consumer products. There are insufficient incentives for commercial manufacturers to incorporate universal design principles into the design and manufacturing of technology products, including devices of daily living, that could expand their immediate use by individuals with disabilities of all ages.

(11) There are insufficient incentives for commercial pursuit of the application of technology devices to meet the needs of individuals with disabilities, because of the perception that such individuals constitute a limited market.

(12) At the Federal level, the Federal Laboratories, the National Aeronautics and Space Administration, and other similar entities do not recognize the value of, or commit resources on an ongoing basis to, technology transfer initiatives that would benefit, and especially increase the independence of, individuals with disabilities.

(13) At the Federal level, there is a lack of coordination among agencies that provide or pay for the provision of assistive technology devices and assistive technology services. In addition, the Federal Government does not provide adequate assistance and information with respect to the quality and use of assistive technology devices and assistive technology services to targeted individuals.

(14) There are changes in the delivery of assistive technology devices and assistive technology services, including—

(A) the impact of the increased prevalence of managed care entities as payors for assistive technology devices and assistive technology services;

(B) an increased focus on universal design;

(C) the increased importance of assistive technology in employment, as more individuals with disabilities move from public assistance to work through training and on-the-job accommodations;

(D) the role and impact that new technologies have on how individuals with disabilities will learn about, access, and participate in programs or services that will affect their lives; and

(E) the increased role that telecommunications play in education, employment, health care, and social activities.
